

TEST 10

Section I. Choose the best option and mark **a, b, c** or **d**.

1. When _____ to Spain? Two years ago.
 - a) did they go
 - b) they went
 - c) are they going
 - d) do they go

2. Who's _____ boy in your class?
 - a) tall
 - b) taller
 - c) tallest
 - d) the tallest

3. _____ to go bungee jumping at the weekend?
 - a) Are they going
 - b) Would they go
 - c) Did they gone
 - d) Have they go

4. I _____ to be a lawyer one day.
 - a) would
 - b) liked
 - c) going to
 - d) would like

5. He agreed _____ camping.
 - a) go
 - b) going
 - c) to go
 - d) went

6. You _____ watch TV this evening if you do your homework.
 - a) should
 - b) must
 - c) have to
 - d) can

7. Have you finished your homework _____?
 - a) never
 - b) yet
 - c) just
 - d) ever

8. How much money do you spend _____ clothes a month?

- a) for
- b) with
- c) in
- d) on

9. Jamie _____ a toothache for two days.

- a) has
- b) has had
- c) is having
- d) was having

10. Spanish _____ in most Latin American countries.

- a) speaks
- b) has been spoken
- c) is spoken
- d) was spoke

11. He must have been _____ to have done such a stupid thing.

- a) out of his mind
- b) out of his hear
- c) out from his mind
- d) of his mind

12. He phoned me in the evening _____ usual.

- a) so
- b) as
- c) like
- d) how

13. Once _____ a while we went _____ the movie _____ the corner _____ LasOlas Boulevard and Castillo Avenue.

- a) on, in, on, at
- b) in, to, on, of
- c) in, to, at, of
- d) in, to, of, of

14. We didn't enjoy the show and _____.

- a) they didn't neither
- b) they didn't too
- c) neither did they
- d) either did they

15. Your jeans _____ torn, is it fashionable?

- a) is

- b) has been
- c) are
- d) was

16. _____ of the brothers Grim was the eldest?

- a) Whom
- b) Whose
- c) Which
- d) What

17. Who _____ everything with parents?

- a) discusses
- b) discuss
- c) do discuss
- d) does discuss

18. Paper _____ by the Chinese.

- a) is invented
- b) was invented
- c) has been invented
- d) have been invented

19. I _____ to spend more time with my relatives.

- a) improved
- b) mind
- c) enjoy
- d) decided

20. Next year, I hope _____ speak French fluently.

- a) I'm possible to
- b) I'll be able to
- c) I'll manage
- d) I could

21. We were expecting beautiful weather at the beach, but it was so cold and rainy that, _____ getting a sun tan, I caught a cold.

- a) in case of
- b) instead of
- c) compared to
- d) according to

22. Although he is 75 years old and drinks and smokes, Mr. Winston doesn't have problems with his lungs, _____ does he suffer from a bad liver.

- a) each
- b) rather

- c) unless
- d) nor

23. _____ told me that there was a party last night, so I just stayed home and didn't do _____.

- a) Someone / anywhere
- b) Anyone / nothing
- c) Somebody / nowhere
- d) No one / anything

24. It's a real shame that you missed _____ class.

- a) too interesting
- b) such an interesting
- c) interesting enough
- d) so interesting

25. I wonder _____ textbooks I will need to buy for my literature course.

- a) how many
- b) how often
- c) how far
- d) however

26. John von Neumann is a far-famed type of computer _____.

- a) archive
- b) architect
- c) acronym
- d) architecture

27. The _____ is often thought to be the central brain of a computer because it performs most of the calculations.

- a) motherboard
- b) graphics card
- c) database application
- d) microprocessor

28. The local microwave station _____ the request to the nearest earth satellite station.

- a) transmits
- b) have transmitted
- c) is transmitted
- d) will be transmitted

29. The ability to create colors as you see them on the screen is _____.

- a) cloud computing
- b) color-coding

- c) click tracking
- d) color matching

30. Viruses _____ via disks but they can also spread through bulletin boards, local networks, and email attachments.

- a) have passed
- b) is passed
- c) are passed
- d) were passed

31. Protesters attempting to reform the World Bank and the International Monetary Fund have not had much success _____.

- a) just
- b) even
- c) so far
- d) later

32. _____ is a service that allows people to manage finances on the Internet.

- a) Multi-thread
- b) Online banking
- c) Paging file
- d) Offline

33. The monitor refreshes the image on the screen all the time _____ this happens, _____ the screen flickers.

- a) the faster ... the less
- b) the faster ... the little
- c) faster ... more little
- d) fastest ... least

34. If a site takes too long to download, people _____ and go to another site.

- a) come up
- b) come across
- c) give up
- d) take up

35. If you input the correct password, you have _____ to the network.

- a) access
- b) memory
- c) message
- d) device

36. Details of every repair _____ to the company's mainframe each night.

- a) are downloaded
- b) is downloaded

- c) has been downloaded
- d) was downloaded

37. _____ with the latest news on your favourite team is easy on the Web.

- a) Selecting
- b) Finding
- c) Keeping up
- d) Linking

38. The parts I ordered weren't compatible _____ my PC.

- a) with
- b) in
- c) for
- d) by

39. The major _____ of using RAD Model are increased re-usability of components, need for specialized & skilled developers.

- a) advantages
- b) drawbacks
- c) expressions
- d) attitudes

40. _____ is the smallest controllable element of a picture represented on the screen.

- a) Object
- b) Pixel
- c) Formula
- d) Symbol

Section II. Reading

Choose the best option and mark **a, b, c** or **d**.

E-mail Protocols

Although the format of a mail message, as transmitted from one machine to another, is rigidly defined, different mail protocols transfer and store messages in slightly different ways. The mail system you're probably used to employs a combination of SMTP and POP3 to send and receive mail, respectively. Others may use IMAP4 to retrieve mail, especially where bandwidth is limited or expensive.

Simple Mail Transfer Protocol (SMTP) is used to transfer messages between one mail server and another. It's also used by email programs on PCs to send mail to the server. SMTP is very straightforward, providing only facilities to deliver messages to one or more recipients in batch mode. Once a message has been delivered, it can't be

recalled or cancelled. It's been delivered. SMTP uses 'push' operation, meaning that the connection is initiated by the sending server rather than the receiver. This makes it unsuitable for delivering messages to desktop PCs, which aren't guaranteed to be switched on at all times. In host-based mail systems, such as Unix and Web mail, SMTP is the only protocol the server uses. Received messages are stored locally and retrieved from the local file system by the mail program. In the case of Web mail, the message is then translated into HTML and transmitted to your browser. SMTP is the only protocol for transferring messages between servers. How they're then stored varies from system to system.

Post Office Protocol (POP) is a message-retrieval protocol used by many PC mail clients to get messages from a server, typically your ISP's mail server. It only allows you to download all messages in your mailbox at once. It works in 'pull' mode, the receiving PC initiating the connection. PC-based POP3 mail clients can do this automatically at a preset interval. When you use your Web mail account to access a POP3 mailbox, the mail server opens a connection to the POP3 server just as a PC-based application would. The messages are then copied into your Web mailbox and read via a browser.

1. What e-mail protocols are mentioned in the text?

- a) SMTP, POP 3, IMAP 4
- b) Simple Mail Transfer Protocol
- c) A combination of Simple Mail Transfer Protocol and Post Office Protocol Version 3
- d) A combination of Post Office Protocol Version 3 and HyperText Markup Language

2. Which email protocol is used to transfer messages between server computers?

- a) Post Office Protocol
- b) Simple Mail Transfer Protocol
- c) Internet Messages Access Protocol
- d) A combination of IMAP and HTML

3. Why is SMTP unsuitable for delivering messages to desktop PCs?

- a) Once a message has been delivered, it can't be recalled or cancelled.
- b) Received messages are stored locally.
- c) The connection is initiated by the sending server rather the receiver.
- d) SMTP is in the only protocol for transferring messages between servers.

4. According to the text what operation is allowed via POP?

- a) To send messages
- b) To open the connection
- c) To download all messages at once.
- d) To copy the messages

5. It can be determined from the text that the following happens when you use your Web mail account to access a POP 3 mailbox?

- a) The mail server opens a connection to the POP3 server.
- b) All messages are downloading in your mailbox.
- c) The messages are copied into your Web mailbox.
- d) You get messages from a server.

Section III. Write an essay on a given topic.

What is the role of information technology in our daily life? Explain all the pros and cons.

Answer Sheet

* You are **NOT ALLOWED** to make notes or any other identifying inscriptions on the answer sheet (provide only answers).
